A homage to Venice, to its beauty and the glass-making. The San Marco collection of lamps is a de-structured restyle of the classic Venetian chandelier where simple glass globes of various sizes are matched with a modular arrangement of glass pendants. The aligned arrangements recall the rounded domes and features of the facade of SAINT MARK'S basilica and the square of the same name. The 3 basic models in "torcion" blown glass - each equipped with own bulb and sequence-extension - are easy to customize with an infinite variety of arrangements that let you create your personal contemporary style.
